## GAS and LPG

What is the difference between a Companion and POL gas fitting?

- POL style fitting is screwed into the gas bottle horizontally
- COMPANION style fitting is generally screwed to the top of the bottle

**MARSHALL  
SINGLE D.P.P. REGULATOR**

Less POL

**000128**

**POL REGULATOR**

- 001401** Regulator 3Kg 8mm Hosetail
- 001384** Regulator 3Kg (No Hosetail)

**COMPANION REGULATOR**

- 001380** Regulator 2.5Kg 8mm Hosetail
- 001377** Regulator 2.5Kg (No Hosetail)

**BALL VALVE 5/16SAE**

With flare

**000144**

## LPG BOTTLES

### COMPACT RV 4KG FRONT LOAD WASHING MACHINE

Camec is proud to announce the release of our Premium Compact RV Front Load Washing Machine - specifically for RV's. With a large 4kg capacity for its size, you can now enjoy all of the features and wash modes you are accustomed to with your home machine right in your RV. Requiring only a cold water supply, hot water washing is possible using the machine's inbuilt heater element.

With 15 wash modes there is a mode to cover most washing needs. Additionally, the machine features AQUAPLUS. This function has been specifically developed for people with delicate or sensitive skin, for whom even a very small amount of detergent can cause irritation or allergies. When used in conjunction with Cottons or Synthetic cycles, the load is washed in a larger quantity of water and this, together with custom drum rotation cycles, ensures garments will be cleaned and rinsed (removing all traces of detergent from fibres) to perfection.

- 15 washing programs including 3 quick wash modes (14,30 & 59 min)
- 400 - 1000 RPM Spin Speed (adjustable)
- Special AQUAPLUS "delicate skin" wash mode
- Auto water level control
- Delayed start option
- Bi-directional wash selector knob
- Wash time remaining LCD display
- 240V Operation
- Weight: 47kg
- Dimensions (mm): 510w x 430d x 700h
- 1300W max power consumption (hot wash)
- 230W power consumption (cold wash)
- One water connection required only (cold)
- 1 Year Warranty

**CYCLE TIME & WATER USAGE**
